The Deli and Cater Pro Range

A "plug and play" range of 304 stainless steel sink and preparation units designed for the commercial FSE (Food Service Establishment) markets, combining the essential needs of kitchen sanitary hygiene with drainage protection. These units combine and integrate a range of over 120 variants with the award winning GreaseShield and FilterShield product range, reducing on site electrical and plumbing installation costs and making the job of deep cleaning, behind and under stainless steel sink and preparation units, so much easier for the FSE.

Key Benefits

Pre-plumbed and pre-wired, versatile and flexible commercial stainless steel - 304 grade, sink and preparation units, incorporating the award winning GreaseShield and FilterShield.

GreaseShield

- ✓ GreaseShield is the only proactive greasetrap in the world to deal with emulsified FOGs. Automatically separates grease from effluent to achieve < 100 ppm FOG Discharge.
- ✓ GreaseShield removes entrained solids in real time to reduce BOD, COD and SS loadings reducing loading on waste water treatment plants and pumping stations.
- ✓ Eliminates frequent pumping costs, harvesting a source of renewable energy.
- ✓ Self emptying and self cleaning. No need for staff to access the internal of the machine.
- ✓ User Friendly! Odour Free!
- ✓ No need to purchase enzymes or biological agents! No heating elements. Low operating costs.
- ✓ Reduce²CO emissions and avoid loss of a renewable energy source caused by pumping out greasetraps.
- ✓ Award Winning Modular Technology; Small, compact and easily installed in any Deli or Kitchen!
- ✓ Eco friendly, sustainable design - 99% recyclable!

FilterShield

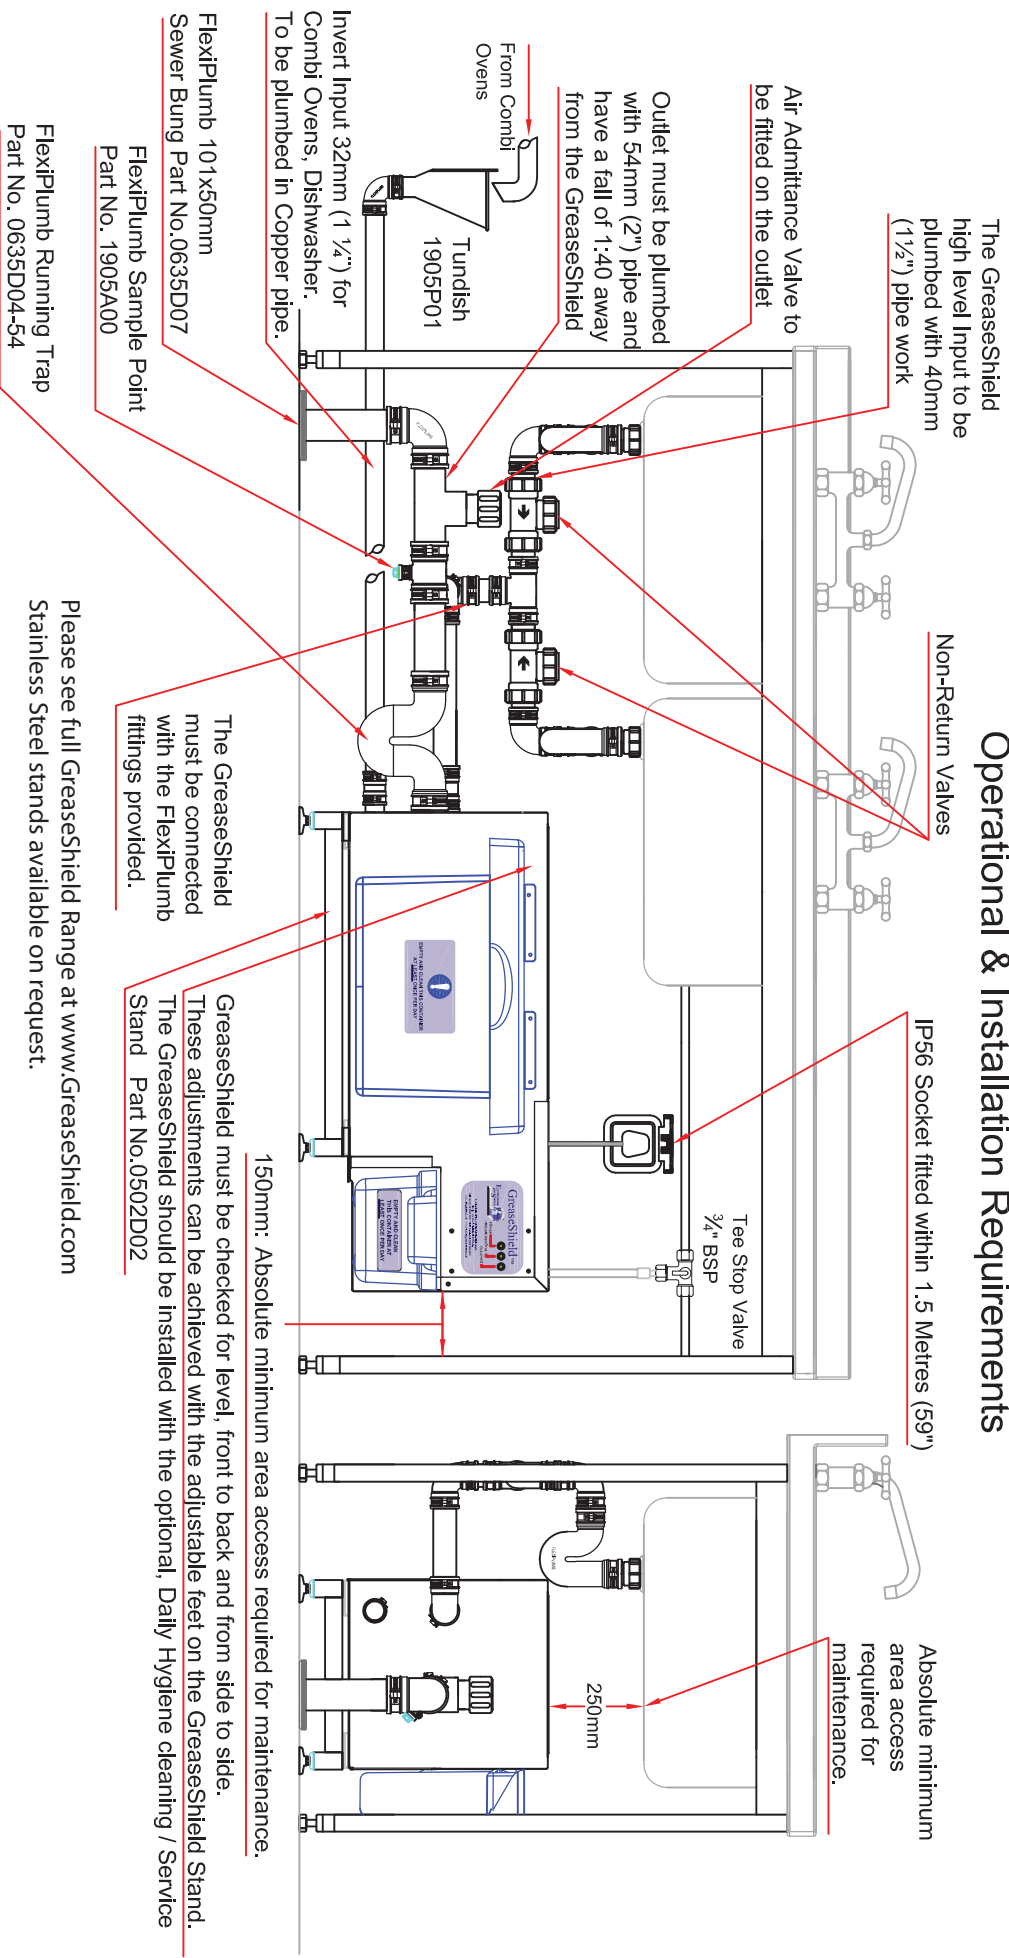

"Not all drainage blockages are caused by fats, oils and grease"

- ✓ No membrane filter to replace!
- ✓ No moving parts!
- ✓ No energy costs!
- ✓ No problems!
